Comments: The UAA was conducted in July 2005. Four sites were evaluated and the stream did not meet the depth criteria for WBCR at these sites. In an unofficial interview, an unattended child (13 years old) stated that people swim in the stream during the summer months and that there are locations where the stream is deeper than one meter. The committee is unable to make a recommendation on the WBCR designation and suggests additional investigation.

Committee Recommendation: ☐ Retain Use ☐ Modify Use ☐ Remove Use ☒ Inconclusive
